The general criteria to be used by DOTD (when applicable) in evaluating responses for the selection of a Consultant to perform these services are:

1. Consultant's firm experience on similar projects, weighting factor of 3;
2. Consultant's personnel experience on similar projects, weighting factor of 4;
3. Consultant's firm size as related to the estimated project cost, weighting factor of 3; *
4. Consultant's past performance on similar DOTD projects, weighting factor of 6; **
5. Consultant's current work load with DOTD, weighting factor of 5; ***
6. Location where the work will be performed, weighting factor of 4;

* All respondents that are too large will receive no less than a 2 in this category.

** The Planning and Feasibility Studies (PL) performance rating will be used for this project.

***All respondents will receive a 4 in this category.

Complexity Level (complex)

Consultants will be evaluated as indicated in Items 1- 6. The evaluation will be by means of a point-based rating system. Each of the above criteria will receive a rating on a scale of 0-4.
